

## Wire-Cutters

### Wire-Cutter DA-2000 standard

Art.-N°. 201020

- mechanical operation of a roller level valve
- pressure 6 bar / 87 psi
- can be fixed to a BRG clamping unit

### Wire-Cutter DA-2000 elektrical

Art.-N°. 201020E

- operation by solenoid valve 24VDC
- pneumatic pressure required 6bar / 87psi
- can be fixed to a clamping unit

### Wire-Cutter DA-10

Art.-N°. 201026

- electrical connection 24 VDC
- pneumatic connection 6bar / 87psi
- double actuated pneumatic cylinder
- limit switch 'wire cutter open'
- limit switch 'wire got cut'
- including wire waste box
- fixed at the side of the BRG
